HISTORY OF AROMATHERAPY

The Eastern spiritual practice of aromatherapy has been recognized for centuries as having potentially profound wellness effects. Similar to the power of yoga and meditation, essential oils can help awaken and stimulate, or relax and promote better sleep. According to Indian beliefs, the seven basic chakras are the centers in our bodies through which energy flows. Because the chakras are closely connected to the endocrine system, using essential oils can help stimulate energy flow and restore balance.

CHROMATHERAPY

Like water and heat, light is a fundamental source of energy capable of altering physical and mental states. The many colors of light are transformative, from the calming tones of the sea and sky to the energizing vibrancy of natural flora. With our range of ChromaTherapy innovations, color and light transport you to a better state of being.

CX GENERATOR SYSTEM

• CX GENERATOR

• CX CONTROL

• FACTORY INSTALLED AUTOFLUSH

QUIETER POWER
The CX Generator is an atmospheric generator that is quieter than a pressurized system. CX also has an internal temperature shut off to prevent low water condition, and an integral high water cut-off feature.

TOUCH-SCREEN CONTROL
The CX generator interface is programmed to preheat steam room at the start of each day. During operation the water in the system is kept at an elevated temperature for fast steaming time.

EASIER INSTALLATION

Dry, inviting heat elevates the body's core temperature, relaxes tired and strained muscles, reduces aches and pains, all the while purifying the body and mind.
