

*California Faucets®*

From our hands to your home®

Kitchen | Bath | Shower | Luxury Drains

## OUR COMMITMENT TO CUSTOMERS

We handcraft our faucets one-at-a-time because you're one-of-a-kind. In a world of the mass-produced, one-size-fits-all, California Faucets offers fittings that fit you.

No matter which of our products you choose, you're assured that each is made-to-order and customized as you like.

Using materials sourced to stand the test of time, then artisan finished and assembled by hand in our Huntington Beach factory, every California Faucets product is unique. Just like you.

### OUR FOUNDER

## FRED SILVERSTEIN

A true pioneer of the decorative plumbing industry, Fred founded California Faucets in 1988. The mission: to produce superior quality, customizable faucets, that are not merely utilitarian, but add a true design element to the bath. In recognition of Fred's many contributions, he was inducted into the Decorative Plumbing & Hardware Association's Council of Fellows in 2018.

Fred passed in 2019, but his spirit of innovation and service lives on in the DNA of California Faucets.

# THE POSSIBILITIES ARE ENDLESS WITH

## KITCHEN FAUCETS

Combining Italian design and American craftsmanship, our kitchen and culinary faucets embody all you've come to expect from California Faucets. Each is handcrafted with our signature solid-brass construction and includes pull-down sprayheads that toggle seamlessly back and forth between stream or spray. All spouts also swivel 360 degrees for maximum reach and flexibility. Our ensembles allow you to create a fully coordinated look with the ability to choose between multiple handle options and more than 25 finishes, including 4 living finishes and 11 PVD finishes, the most durable finish in the world.

## BATHROOM FAUCETS

Bathroom faucets and fittings are the cornerstone of California Faucets. We offer more than 30 series, each handcrafted and made to order with solid brass construction. We've also pioneered Custom Faucetry®, allowing customers to combine any handle and spout we offer in any of our finishes. As a result, you can achieve any design vision.

## SHOWER SYSTEMS

In the past, thermostatic showers were enjoyed in only the most luxurious bathrooms. But now, the superior technology of thermostatic showers is affordable for every bath. With StyleTherm®, you can dial in precise temperatures rather than adjusting handles with each use to find the perfect mix. Independent volume controls allow you to adjust the water volume for each device you're using, whether it's a showerhead, body spray, handshower, or tub spout.

# CUSTOM KITCHEN AND BATH FITTINGS

## LUXURY DRAINS

California Faucets was the first to bring luxury shower drains to the industry, and now our offering includes StyleDrain® and StyleDrain® Tile. These **award-winning originals** are built with a level of unmatched quality. We continue to expand our line with extraordinary decorative drains that put the finishing touch on your shower design.

## ZERODRAIN®

Our award-winning ZeroDrain is positioned to become the new standard in sink drains. In the open position, the stopper is level with sink, resulting in a superior “zero clearance” design. Virtually impossible to clog, ZeroDrain is easier to install and service compared to standard pop up drains which saves significant time and money. ZeroDrain is available in all of our artisan finishes.

## ACCESSORIES AND TRIM

A bathroom's fittings should have the same design continuity you'd expect of any other room interior. That's why we offer a complete line of plumbing specialties including towel bars, grab bars, cabinet hardware, deluxe angle stops and p-traps. All of our trim pieces and coordinated bathroom accessories are available in all of our artisan finishes.

# THE KITCHEN COLLECTION

ITALIAN DESIGN. CALIFORNIA CRAFTSMANSHIP.

## DAVOLI | K10

One of the many captivating coastal towns and beaches along the crystalline waters of the Ionian Sea, Davoli's origins extend to medieval times. No wonder that our Davoli Series has a look that's solid, traditional and as timeless as antiquity. Available in multiple handle options.

## INDUSTRIAL DESCANSO | K30 DESCANSO WORKS | K81

The Descanso Kitchen Series is a strikingly fresh take on industrial chic style. Featuring distinctive hashmark knurling on the handle, Descanso also offers a smooth handle option, as well as one with sleek carbon fiber accents.

## CORSANO | K51

Corsano is nestled in the heel of Italy's boot, a charming, diverse region. Our faucet series of the same name is a contemporary take on its timeless character. Available in multiple handle options.

## POETTO | K50

Poetto is Italy's longest stretch of beach, extending almost five miles along the southern Sardinian shore. Our Poetto Series faucet offers its own lengthy profile. Slim, sleek and beautifully curved, its minimalist look becomes an integral element in your contemporary kitchen. Available in multiple handle options.

*We've brought our expertise into the kitchen with faucets and ensembles that include everything from matching prep faucets to soap dispensers. Each faucet in our collection reflects the superior craftsmanship, attention to detail and willingness to customize that set California Faucets apart.*

## LA SPEZIA | K55

Inspired by the picturesque Italian village bearing its name, La Spezia is located near Genoa, Italy, where beautiful, multi-colored houses cascade down to the shoreline. Our La Spezia Series features fresh contemporary design, available in all of our 25+ artisan finishes, allowing you to evoke the spirit of the colorful town.

## COTO | K90

Our award-winning kitchen collection steps outdoors, with the Coto Series. Made of ultra durable 316 stainless steel, Coto features four unique handle styles and is available in 7 artisan finishes, including 4 PVD finishes. Indoors or out, Coto makes a cool and long lasting impression.

## CULINARY

Italian cooking is often defined by its simple cuisine, with emphasis on freshness and quality ingredients, rather than complexity of the culinary technique. Designed with the cooking enthusiasts in mind, it's the beautiful, robust accents that add surprise, delight and the ideal finishing touch to any kitchen. Available in multiple handle options.

## CF LIMITED | K01

CF Limited combines style, function, value and immediate shipment. With your choice of two handles and three finishes, plus a unique concealed dual-function pull-down sprayer, CF Limited delivers what you need when you need it, at a competitive price point.

# BATHROOM FAUCETS

## WIDESPREAD FAUCETS

For more than 30 years, we've focused our passion on creating artisan bathroom faucets and fittings. Each faucet we make is handcrafted and made to order with solid brass construction. Our Custom Faucetry® enables you to combine any handle and spout from more than 30 bathroom faucet series. All are available in more than 25 finishes, including I I PVD finishes, the most durable finish in the world, allowing you to bring your ideal faucet design to life. Visit us at **[californiafaucets.com](http://californiafaucets.com)** to see our full selection.

PALOMAR® floor mounted tub filler in oil rubbed bronze  
model #: 1303-48.FR-ORB

BALBOA® floor mounted tub filler in polished nickel  
model #: 1503-47.FR-PN

Providing exceptional design flexibility, our tub fillers allow you to mix and match handle options, ranging from contemporary and transitional to traditional styles.

As always, each of our twelve series are available in all of our artisan finishes, to create the largest, most personalized selection of tub fillers in the world.

With our tub fillers available in deck-mounted, wall-mounted, and freestanding styles, we have something for everyone.

# SHOWER SYSTEMS

At California Faucets you'll find a full selection of shower components that allow you to create your personal vision of the ultimate shower system. We've also focused our efforts on making thermostatic shower technology, once found in only the most luxurious bathrooms, affordable for every bath.

StyleTherm® thermostatic shower with three independent volume controls.  
Tiburon® Series with 8" Ultra-Thin Round Showerhead, Shower Arm & Flange, and Contemporary Body Sprays. Featured in Satin Nickel.  
model #s: TO-THN-65-SN, TO-65-W-SN (3), 9112-65-SN, SH-162-8.FR-SN, BS-65-SN (3), THT75-R, 75-W-R (3)

# STYLETHERM®

It's easy to choose your ideal shower system.

Every California Faucets StyleTherm shower fitting delivers precision temperature control for comfort and safety. And all of them are available for less than an inferior standard technology, such as pressure balance.

As a result, you can now install a safe, precision temperature control fitting in every shower in your home.

Choosing the right one comes down to the style you prefer and the number of shower applications you want to operate. For example, in your master bath, do you want to run the showerhead, a handheld spray and body spray at the same time? Or just two of those? Is it a children's or guest's shower designed with only a single showerhead or a more typical tub/shower combination?

The answer to these questions is important, because StyleTherm's innovative design features independent water volume control for all applications without the need to toggle between them, and they can be configured for virtually any design scenario.

(Shown at right with two integrated volume controls, model #: TO-THF2L-52-SN)

\*StyleTherm versions available to meet even the strictest water conservation codes, including CalGreen.

## FEATURE COMPARISON

	STANDARD PRESSURE BALANCE	STYLETHERM® THERMOSTATIC
Delivers mixed water to showerhead	✓	✓
Easily and accurately sets precise mixed water temperature		✓
Protects against dangerous sudden changes in both water pressure and temperature		✓
Temperature override button prevents inadvertent scalding		✓
Volume control(s) allow you to adjust water flow from low to high		✓
Independent volume controls allows you to operate multiple devices simultaneously		✓

StyleTherm is superior thermostatic technology AND it's available at the cost of inferior shower systems. Why settle for less? StyleTherm is the ONLY solution.

# SHOWER SYSTEMS

We offer a range of cutting-edge shower systems - innovative in technology, old-world in craftsmanship.

StyleTherm® thermostatic shower with three independent volume controls and round trim plate. Featured above with coordinating slide bar and hand shower, showerhead and body sprays. kit #: KT08-66.FR-MBLK

StyleTherm thermostatic shower with integrated cal-green compliant single volume control. Featured above with coordinating showerhead and handshower. kit #: KT03-33.FR-PN

StyleTherm® thermostatic shower with dual integral volume controls. Featured at right with coordinating slide bar, handshower, showerhead, shower arm and flange.

# STYLEDRAIN®

by Christopher Grubb

These four luxury drain designs created in collaboration with award-winning interior designer, Christopher Grubb each reflect Christopher's passionate belief that beauty truly is in the details.

Strathmore StyleDrain® | model #: 9195-A-SN

Camden StyleDrain® | model #: 9196-A-SN

Roxbury StyleDrain® | model #: 9197-A-SN

Mulholland StyleDrain® | model #: 9198-A-SN

# LUXURY DRAINS

At California Faucets, we continue to innovate. Case in point: our luxury shower drains. Our original designs were an industry first, and today, they're still the best you can find. Today, we offer a wide selection, allowing you to find the look that perfectly complements your shower design.

**StyleDrain®** is the only decorative drain system of its kind. It's patented design features beautiful patterns in solid, forged brass and is available in over 25 custom finishes. With no visible screws, it's easy on the eyes and feet.

Craftsman in oil rubbed bronze | model #: 9170-A-ORB

**StyleDrain® Tile** is a patented innovation that allows you to lay in any tile to seamlessly match the rest of the shower. As a result, the drain virtually disappears.

StyleDrain Tile with polished chrome accents | model #: 9190-A-PC

California Faucets luxury drains created a one-of-a-kind category in the bath industry. It's no wonder we captured the industry's attention by winning numerous design awards.

## ZERODRAIN®

Our award-winning ZeroDrain is positioned to become the new standard in sink drains. In the open position, the stopper is level with sink, resulting in a superior "zero clearance" design. Virtually impossible to clog, ZeroDrain is easier to install and service compared to standard pop up drains which saves significant time and money. ZeroDrain is available in all of our artisan finishes. model #: 9050ZB-SN

ZeroDrain's revolutionary, patented design is the winner of these prestigious awards.

To watch our Zero Drain video, scan the QR code or go to [calfaucets.com/videos](http://calfaucets.com/videos)

# ALL BRASS HANDSHOWERS

Our brass multi-function handshowers come in a variety of styles, including traditional, contemporary, industrial and even Steampunk. Featuring rain, air, and massage settings as well as helpful self-cleaning rubber jets, these highly durable and ergonomic handshowers are sure to please.

## STYLEFLOW®

StyleFlow® is our family of showerheads that carry on the Swiss tradition of timeless craftsmanship and unsurpassed quality. Powered by Swiss Shower Technology®, StyleFlow represents just a part of our meticulously engineered line of innovative showerheads and handshowers.

# TRIM

A completely integrated bathroom design should include all of its fittings. By offering a wide range of accessories and trim pieces, each available in our full array of artisan finishes, we make it easy for you to carry the look and feel of your faucets through to the rest of the bathroom.

Descanso® Series with 8" widespread,  
matching p-trap & deluxe angle stops.  
model #'s: 3102XF-PN & 9834-30XF-PN

# CABINET HARDWARE

Whether it's cabinet knobs or our new collection of appliance pulls, our cabinet hardware design spans motifs from contemporary and transitional to traditional and industrial. Available in all of our 25+ artisan finishes, these final touches provide all you need to bring any cohesive design to life.

Descanso® coordinating cabinet hardware shown in satin brass  
model #s: 9484-K30K-24-SB,  
9484-K30K-18-SB & 9484-K30K-12-SB  
faucet: LaSpezia K55-100-TG-SB

# CONSERVATION THROUGH INNOVATION

While quality and service are essential, we also want to do right by the planet. Besides our commitment to recycling and other green practices, we work hard to develop innovative products that promote conservation and sustainability.

*Some notable examples include:*

## WATER CONSERVATION

All of our lavatory faucets have a maximum flow rate of 1.2 GPM (gallons per minute), a water savings of 1.0 GPM or 45%. All of our kitchen faucets have a maximum flow rate of 1.8 GPM, a water savings of 0.4 or 18%. These water conserving flow rates go beyond the call of duty in complying with the 2.2 GPM standard mandated by the Federal Energy Policy Act of 1992. All showering end devices (showerheads and handshowers) are in compliance with mandatory federal maximum flow rates and may be fitted with 2.0, 1.8 or 1.5 GPM flow restrictors. This water savings of 20%, 28% or 40% respectively, meets state and city conservation codes.

*Note: As future water conservation codes are adopted, California Faucets will make sure to be in compliance.*

## CLEAN AIR & CLIMATE CONSERVATION

More than a third of our decorative finishes are PVD (physical vapor deposition), the most durable and environmentally-friendly finish available today. The PVD manufacturing process involves no toxic or ozone-depleting chemicals, which means no hazardous waste to pollute our air or water supply. California Faucets produces the largest selection of decorative PVD finishes, making us the world leader in these innovative finishes.

## RECYCLING

Our fittings are made of high quality, solid brass. Unlike faucets made from inferior materials, which ultimately end up in landfills, brass is highly recyclable. We strive to reduce any environmental impact from our manufacturing and daily operations. For example, in all our product packaging, we're retiring the use of polyfoam and replacing it with a recyclable, sustainable substitute. Hexacomb® is a paper-based packaging that's as strong and durable as foam without the added waste to our landfills.

## LEED-FRIENDLY

California Faucets manufactures products that help builders meet the Leadership in Energy and Environmental Design (LEED) requirements, which promote environmentally sustainable construction. Use of California Faucets' products can help substantially reduce indoor water usage and help projects obtain valuable LEED points.

## WORLD'S FIRST CALGREEN COMPLIANT THERM VALVE

California has some of the country's most stringent water conservation standards. California Faucets proudly created the first thermostatic system that's entirely compliant with the California Green Building Standards Code (CALGreen). Our innovative design modifications meet the CALGreen code requirements while still offering the superior features and benefits of a thermostatic shower system, including volume control, anti-scald protection and precision water temperature settings.

Asilomar® Series single hole floor  
mount tub filler in satin nickel.  
model #: 1111-62.FR-SN

# FINISHES

## (Physical Vapor Deposition)

PVD finishes come with a lifetime guarantee against tarnishing. Super-hard and molecularly bonded, PVD is by far the most durable finish available.

## (Living Finishes)

Created by artisan hands to uniquely age and change over time. Because they are more delicate by nature, please make sure to follow our living finish care instructions.

### **WARNING**

This product may contain Lead and/or chemicals known to the State of California to cause cancer, birth defects, or other reproductive harm. [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

### **For our California Customers**

California Faucets provides a warning label to comply with the California Safe Drinking Water and Toxic Enforcement Act of 1986, commonly known as "Proposition 65". Many products sold in California are required by law to carry the label. We provide Prop 65 warning labels simply to inform consumers that the product contains chemicals on the State of California's Prop 65 list. California Faucets products that carry the Prop 65 label pictured here include components made with brass, which contain small but detectable amounts of lead – an element included on the Prop 65 chemical list. Brass has a decades-long history of successful use in plumbing applications. Even though a product may be found to contain a Proposition 65-listed chemical, it does not mean that use of the product will cause cancer, birth defects or other reproductive harm. Nor does it mean that a product is unsafe.

All California Faucets products meet or exceed the requirements of applicable product performance and safety industry standards, as well as the federal Safe Drinking Water Act.

We are confident there is no health hazard associated with the installation, use or removal of California Faucets products.

The world's first Culinary Faucet that allows you to finish the spring coil in a custom color.

Here are just three examples of how customization can help you achieve your design vision:

Refer to the chart on the following page for ordering details.

Lifetime Polished Gold (PVD) Faucet with Stainless Steel Coil

Lifetime Polished Gold (PVD) Faucet with Custom Finished Coil in Lifetime Polished Gold (PVD)

Graphite (PVD) Faucet with Stainless Steel Coil

Graphite (PVD) Faucet with Custom Finished Coil in Graphite (PVD)

Carbon (PVD) Faucet with Stainless Steel Coil

Carbon (PVD) Faucet with Custom Finished Coil in Carbon (PVD)

# Culinary Faucet Spring Options

Unique to California Faucets is the ability to choose an alternate Coiled Spring finish. The optional Coiled Spring finish is pre-determined by the faucet finish, as indicated on the chart shown below.

**The Coil defaults to standard Stainless Steel for the finishes listed below:**

Polished Chrome	Polished Nickel (PVD)	Matte White
Satin Chrome	Satin Nickel	Gloss White
Burnished Nickel	Ultra Stainless Steel (PVD)	

**How to specify a coil finish other than standard Stainless Steel:**

replace 150 with 150F. For example: K50-150F-BST or K30-150FSQ-KL

If your faucet has this finish	The upcharge for your optional Custom Spring Coil will be <b>\$215</b>	If your faucet has this finish	The upcharge for your optional Custom Spring Coil will be <b>\$215</b>
Gloss Black* Black Nickel (PVD)	Black Nickel (PVD)	Polished Brass (PVD) Polished Brass Uncoated*	Polished Brass (PVD)
Antique Brass Flat* Antique Copper Flat* Carbon (PVD) Matte Black*	Carbon (PVD)	French Gold (PVD)	French Gold (PVD)
Antique Nickel Flat* Graphite (PVD)	Graphite (PVD)	Burnished Brass* Satin Brass (PVD)	Satin Brass (PVD)
Bella Terra Bronze* Oil Rubbed Bronze*	Mocha Bronze (PVD)	Satin Bronze (PVD)	Satin Bronze (PVD)
Lifetime Polished Gold (PVD)	Lifetime Polished Gold (PVD)	Lifetime Satin Gold (PVD)	Lifetime Satin Gold (PVD)

\*The spring finish is complementary in color, but not an exact finish match.

<div><b>3108XT</b> Teak* Cross Handle</div> <div></div>			

\*Teak wood is a natural product and there can be variation from piece to piece in wood color, brightness and grain pattern. Color changes also may result from exposure to light, water and other elements that are part of the natural aging process. These material variations and changes are not a defect and not covered by warranty.

\*Teak wood is a natural product and there can be variation from piece to piece in wood color, brightness and grain pattern. Color changes also may result from exposure to light, water and other elements that are part of the natural aging process. These material variations and changes are not a defect and not covered by warranty.

\*Teak wood is a natural product and there can be variation from piece to piece in wood color, brightness and grain pattern. Color changes also may result from exposure to light, water and other elements that are part of the natural aging process. These material variations and changes are not a defect and not covered by warranty.

\*Teak wood is a natural product and there can be variation from piece to piece in wood color, brightness and grain pattern. Color changes also may result from exposure to light, water and other elements that are part of the natural aging process. These material variations and changes are not a defect and not covered by warranty.

\*Teak wood is a natural product and there can be variation from piece to piece in wood color, brightness and grain pattern. Color changes also may result from exposure to light, water and other elements that are part of the natural aging process. These material variations and changes are not a defect and not covered by warranty.

To order replace .FR with desired max flow rate.

For example:

KT13-77.25 for 2.5 gpm

KT13-77.20 for 2.0 gpm

KT13-77.18 for 1.8 gpm

before ordering check State, City, & Local flow rate requirements

California Faucets®

*California Faucets®*

TERMS, WARRANTY & FINISHES

# California Faucets® Consumer Limited Warranty

CALIFORNIA FAUCETS provides the following warranties on genuine CALIFORNIA FAUCETS products purchased on or on behalf of a consumer from an authorized dealer for the installation in a dwelling in which the consumer resides. The term "authorized dealer" means a retail seller licensed by CALIFORNIA FAUCETS to sell its products. The warranty extends to the original consumer only and is not transferable. Unless otherwise stated, this warranty begins on the date of the original retail sale and continues for as long as the original consumer owns the product and resides in the dwelling in which the product is initially installed. To obtain service under this warranty, contact your CALIFORNIA FAUCETS authorized dealer, visit [calfaucets.com/warranty/service](http://calfaucets.com/warranty/service), or call us at (800) 822-8855. Once you have filed a warranty claim, we will instruct you on the process to be followed. Proof of satisfaction of warranty criteria is required for warranty claims in the event it is requested by California Faucets.

BY WAY OF EXAMPLE ONLY, THIS WARRANTY WILL NOT APPLY TO CALIFORNIA FAUCETS PRODUCTS PURCHASED FROM SUCH UNAUTHORIZED ONLINE SOURCES AS EBAY, AMAZON, AND WALMART.

## What is Covered:

### Repair, Replacement, or Refund Terms:

During the warranty period, CALIFORNIA FAUCETS will, at no charge to the consumer, repair or replace any part which proves defective in material or workmanship under normal installation, use and service. Should CALIFORNIA FAUCETS determine that it is unable to repair or replace a defective covered part or that repair or replacement will not remedy the defect, CALIFORNIA FAUCETS will replace the product with the same or similar product or refund the original retail purchase price of the product.

Replacement parts can be obtained from your local dealer or distributor or by contacting CALIFORNIA FAUCETS directly at [calfaucets.com/warranty/service](http://calfaucets.com/warranty/service).

### Mechanical Warranty:

A limited lifetime warranty is provided on all mechanical parts to be free from defects in material and workmanship. The term "mechanical parts" means all parts and components of a product except cartridges and finishes.

### Cartridge Warranty:

A limited lifetime warranty is provided on all ceramic disc cartridges. All other cartridges (including, but not limited to diverter, thermostatic and pressure balance cartridges) are warranted for a period of five (5) years from date of purchase.

### Finish Warranty:

A limited lifetime warranty is provided on all finishes against defects in materials and workmanship. In addition, all finishes except living finishes (including but not limited to Polished Brass Uncoated, Oil Rubbed Bronze, Burnished Brass, and Burnished Nickel) are guaranteed against tarnishing. Living finishes are expressly designed to tarnish and otherwise change appearance over time.

### Instant Hot Water Tank:

A limited three (3) year warranty from date of purchase is provided on all Instant Hot Water Tanks.

## What is Not Covered (Exclusions and Limitations):

The following are excluded from warranty coverage.

- Drains, including but not limited to, pop-up drains, lavatory drains, shower drains, bathtub drains, and kitchen drains.
- Parts made of glass, crystal, porcelain or wood.
- Defects caused by modification, alteration, abuse, misuse, or accident; maintenance, cleaning, installation, or removal not in accordance applicable instructions; mineral accumulation, corrosion due to a marine or other saline environment or corrosive chemicals, acts of God or the government; criminal, intentional, reckless, or negligent acts; or ordinary wear and tear.
- Use of product outdoors (except products made of 316 Stainless Steel, including 316 Stainless Steel with PVD finishes).
- Any industrial, commercial, or business use of the product, including use in a property held for lease or rent.
- Labor charges, including but not limited to labor required to uninstall, install, or reinstall a product; to disassemble and reassemble a product; or to install or affix replacement parts or components.
- Indirect, incidental or consequential damages. (Some states do not allow the exclusion of incidental or consequential damages, so the above exclusions may not apply to you.)

The removal, modification, or alteration of any flow restriction device voids this warranty in its entirety.

## Limitation on the Duration of Implied Warranties:

The duration of implied warranties (including warranties of merchantability and fitness for a particular purpose) shall be limited to the shorter of the warranty period stated in this document or the minimum duration required by state law. Some states do not allow the limitation of implied warranties, so the above exclusions or limitations may not apply to you.

## Your Rights Under State Law:

This warranty gives you specific legal rights and you may also have other rights that vary from state to state.

## Commercial Warranty

CALIFORNIA FAUCETS extends the above limited warranty to purchasers of products for industrial, commercial and business use upon the same terms and conditions and exclusions applicable to consumer purchasers, except that the finish, cartridge and mechanical warranty is reduced to two (2) years from the date of purchase. Additionally, with respect to commercial purchasers, all implied warranties, including the implied warranties of merchantability and fitness for a particular purpose are excluded.

# Terms & Conditions

## Conditions of Sale

All products become the buyer's property when delivered to the carrier. All goods are shipped at the customers' risk. California Faucets reserves the right to modify specifications, design, pricing and packaging or alter the weight of any item at our option without prior notice. All orders are subject to acceptance by California Faucets.

*Please note the warranty exclusion for online sales through such unauthorized retailers as Amazon, Ebay, Sears, Walmart, etc.*

## Prices

All orders will be priced according to prevailing prices at time of shipment. Prices are subject to change without prior notice.

## Terms

Unless otherwise mutually agreed in writing, terms are Net 30. All invoices are past due thereafter. Past due accounts will be placed on a "HOLD" status until the account is brought current. California Faucets reserves the right to ship on a C.O.D. status where deemed necessary. A finance charge of 1.5% per month will be charged on past due accounts. In the event legal action is required to enforce these Terms & Conditions, the prevailing party shall recover reasonable attorney's fees and costs.

## Returned Checks

A \$35 service charge will be invoiced on all returned checks.

## Freight

F.O.B. Huntington Beach, California. A \$5.00 shipping and handling charge is added to each shipment. Full freight allowed on single purchase orders of \$4,500 net to a single address within the Continental U.S. Full freight allowed does not apply to commercial orders, special net pricing or displays. Any additional delivery requirements (i.e. lift gate, delivery appointment, expedited service, etc.) do not meet our full freight terms and will incur additional charges. All shipments via 3rd party accounts will be charged a \$5.00 handling fee.

## Claims

All claims for shortages, damages, errors, etc., must be made within four weeks of the ship date. Claims for lost shipments or goods damaged in shipping must be made against the carrier.

## Returns

Goods cannot be returned without prior written authorization in the form of an RMA number. You may request an RMA at: [customerservice@calfaucets.com](mailto:customerservice@calfaucets.com). Please include a copy of the invoice or packing slip and indicate the reason for the return. Returns, other than for manufacturing defects, will be subject to a restocking charge of 15% for Polished Chrome and 25% for all other finishes. Living Finishes and custom orders are not returnable nor cancelable. Discontinued product and products shipped more than one (1) year ago are not returnable.

Returns of non-defective merchandise must be in new, re-sellable condition. All shipping charges are the responsibility of the buyer. Any credits to be applied will be determined after inspection of the returned products. All returned merchandise must be properly packaged to avoid damage during return shipment.

Once approved, returns should be sent to 5271 Argosy Ave., Huntington Beach, CA 92649.

# California Faucets®/Cal Trim Finish Care Instructions

Congratulations on your purchase of a fine decorative fitting from California Faucets. With proper care, your fitting will maintain its beautiful appearance for years to come. While all California Faucets finishes are designed for maximum durability, failure to give your fitting the proper care may void the warranty. As a result, here are a few helpful tips:

## All Finishes

For easy maintenance, wipe dry after each use with a dry soft microfiber cloth to prevent water-spotting and mineral build-up.

Clean and wax regularly. We recommend Faucet Brite\*\*, which contains both gentle cleansers and a fine wax coating. Otherwise, clean with mild detergent and water; then apply a quality car wax or floor paste wax.

\*\*For Living Finishes (see description below), we recommend Renaissance Wax instead.

## A few important basics

Use a soft microfiber cloth for cleaning and wipe down.

Use a "mild" detergent (such as Joy®, Ivory® or Dawn®)

Avoid all abrasive and aggressive chemicals ("SoftScrub®", etc.).

Avoid ammoniated products (window cleaner, tile cleaners, etc.).

Avoid bleach.

Do not use abrasive cleaning pads (Scotch-Brite™, etc.).

Do not allow water to come into prolonged contact with faucet surface, wipe down after each use.

Do not allow water to collect at base of faucet.

In addition to above, read the following finish-specific notes:

## Powder Coat Finishes (Antique Brass, Antique Copper, Antique Nickel, Bella Terra Bronze, Black, Matte White, Matte Black, Matte Black, White)

These finishes are protected with a clear powder coating designed to allow the underlying color to show through and provide a layer of protection. Still, abrasives and harsh chemicals can damage the finish and expose the underlying fitting to tarnish and corrosion.

Follow the "All Finishes" recommendations listed above. Avoid all abrasives.

## Nickel Finishes (Satin Nickel)

These finishes are uncoated so as to allow the natural, subtle beauty of the metal to show through.

Follow the "All Finishes" recommendations listed above.

If not cared for regularly, Nickel finishes may oxidize and require a stronger cleaning agent. If this occurs, simply use a mild metal polish such as Flitz or Semi-Chrome. It will restore your fittings' natural luster.

## PVD Finishes (Black Nickel, Carbon, French Gold, Graphite, Lifetime Polished Gold, Lifetime Satin Gold, Polished Brass, Polished Nickel, Satin Brass, Satin Bronze and Ultra Stainless Steel)

PVD (Physical Vapor Deposition) uses a state-of-the-art process that molecularly bonds the finish to the faucet, creating a super-hard surface that is by far the most durable available today. These cutting edge finishes are so effective we guarantee them for life against tarnishing.

Although our PVD finishes have proven resistant to over 100 cleaning products, we recommend avoiding certain products (listed below) since they can harm even a PVD finish:

Avoid all products designed to remove tarnish or rust, or contain hydrochloric, hydrofluoric, and/or phosphoric acid or caustic agents.

Avoid bleach.

Do not use abrasive cleaning pads (Scotch-Brite™, etc.).

Follow the "All Finishes" recommendations listed above for proper cleaning and care of your California Faucet.

## Living Finishes (Burnished Brass, Burnished Nickel, Polished Brass Uncoated and Oil Rubbed Bronze)

As unique artistic products, no two fittings look exactly alike. These finishes will age and wear over time, enhancing the rustic, natural look of the metal. Essentially, the finish is what nature would do to the surface over a long period of time, and is affected not only by time, but also by touch, climate, environment, cleaning, usage, etc. The surface will tend to darken and patina in areas that are infrequently touched, while the areas that are touched frequently may lighten or exhibit highlights. Water drops can create spots. To help minimize this, dry the faucet surface after each use.

Because Living Finishes are by nature more delicate than other finishes, the only recommended care is to keep the surface dry after each use and occasionally apply a high-quality wax such as Renaissance Wax (available from your authorized California Faucets dealer or online). Apply wax sparingly and gently buff with a soft clean cloth to remove surface spots and add a protective layer to the surface. No other cleaning is necessary or recommended. Never use abrasive cloths/pads, cleaners, bleach, vinegar or solvents as these will irreversibly damage Living Finishes.

## Stainless Steel Finishes (Satin Stainless Steel)

This finish is an uncoated superior 316 stainless steel material. The level of cleaning depends primarily on the environment. In more polluted or corrosive environments, particularly in coastal situations and swimming pools, the surfaces require regular cleaning to maintain an appropriate appearance. We recommend regular cleaning of stainless steel surfaces with a mild detergent and warm water. Do not clean stainless steel in direct sunlight or excessive temperatures.

## Teak Finishes

Wipe dry with a dry soft microfiber cloth after use. To remove accumulated dirt, clean with a heavily diluted solution of mild detergent and warm water. Teak can fade to a silver-grey color over time. Occasional treatment with Teak Oil will restore color.

# FINISHES

## (Physical Vapor Deposition)

PVD finishes come with a lifetime guarantee against tarnishing. Super-hard and molecularly bonded, PVD is by far the most durable finish available.

## (Living Finishes)

Created by artisan hands to uniquely age and change over time. Because they are more delicate by nature, please make sure to follow our living finish care instructions.
